

Israeli Ambassador visited Tripura

Israeli Ambassador visited to Tripura

- Ron Malka, Israeli Ambassador to India along with his wife MS Lea has visited Tripura on 4th November 2020.
- The purpose of his visiting to Tripura is to discuss on Agriculture, horticulture sectors as well as information technology segment and to make the state boost in Agriculture and agro industry sectors and also to develop Tripura's agriculture sector and agro industries and to make the people of the state self sufficient and self reliant in agriculture and horticulture.
- The envoy held meeting with the chief Minister of Tripura Biplab Kumar Deb and Senior Officials led by Chief Secretary Manoj Kumar and with the Deputy Chief Minister of Tripura Jishnu DeV Verma.

Continue

- Israel is an agricultural technology dependent country. The country is doing a lot of research on agriculture. Among all the countries in the World, Israel has improved agriculture, horticulture and Irrigation. India and Israel have been working together in the field of agriculture since the formation of Israel in 1948 and India's relations with Israel have been positive from the beginning. Israel has formed 29 agro Center of Excellence in India. Several farmers of India have been trained with assistance of Israel.

The envoy's promises

- Ron Malka has assured that the Israel is keen interest to set up a agro Center of Excellence in Tripura to bring latest technologies in horticulture and in the agriculture sector.
- Israel will help the state how to implement scientific approach in farming, horticulture, soil treatment.
- He also promised that Israel will help the State Government to double the income of farmers of the state.
- Apart from Agriculture sector He discussed several issues like management of Cultural and tourist promotion and advanced technology.
